

MACKINNON & OLDING

The Quality Policy of MacKinnon & Olding is as follows:

MacKinnon and Olding Ltd.'s quality policy is to meet customer expectations for the provision of services for the application of marine and industrial coatings, flooring installation, scaffolding and insulation.

Anticipating customer and interested party needs for product and service quality and providing skilled, reliable and customer focused employees and the use of approved suppliers for outsourced products or services.

To achieve this policy Mackinnon & Olding has established quality objectives that are measured, analyzed and reported in order to ensure continual improvement.
